among our client base

How we stand out

- ✓ Intuitive use, no special expertise needed
- ✓ Wireless, pocket-sized device
- ✓ Versatile functionality for every skill level
- ✓ Time and money-saving car maintenance
- ✓ Trusted by drivers globally

Why become OBDeleven distributor?

- ✓ Healthy margins and a continuous revenue stream post-sale
- ✓ 24/7 technical support for maximum customer satisfaction and loyalty
- ✓ Exceptional quality with an impressively low return rate of 0.1%
- ✓ Official licenses from leading car manufacturers
- ✓ Regular updates and new feature releases for fresh and exciting product range
- ✓ Best lead times in the market so you meet customers needs without delays
- ✓ Constantly growing market presence and thus demand and your potential sales
- ✓ Opportunity to get exclusivity rights

OBDeleven 3 device

Supports most modern vehicles.

The OBDeleven 3 device is a handy, Bluetooth-enabled diagnostic tool designed for drivers and car enthusiasts of all skill levels. It pairs with the OBDeleven mobile app and accesses all available car systems through our cloud-based software.

This device lets drivers diagnose, customize, and improve vehicle performance with just a few taps on their smartphone.

PRO Pack

Supports Volkswagen, BMW, Toyota, Ford (US) Groups and Mercedes-Benz.

The OBDeleven PRO Pack combines the advanced capabilities of the OBDeleven 3 device with the PRO plan, offering a versatile solution for daily drivers as well as professionals.

The bundle lets drivers go beyond advanced diagnostics and unlocks manual coding and adaptations for Volkswagen Group (VAG) cars, and ensures priority customer support.

ULTIMATE Pack

Supports vehicles from Volkswagen, BMW, Toyota, Ford,
and Mercedes-Benz Groups

The ULTIMATE Pack combines the OBDeleven 3 device with the ULTIMATE plan. It includes access to everything OBDeleven has to offer - advanced diagnostics, manual coding & adaptations for Volkswagen Group (VAG) vehicles, unlimited access to pre-made coding options called One-Click Apps, priority customer support, and more.

The OBDeleven ULTIMATE Pack is designed for workshops and experienced car enthusiasts who love working on and customizing vehicles on their own.

** - Available for Volkswagen Group only

One-Click Apps

One-Click Apps are pre-made coding options, allowing users to activate, deactivate, and adjust car features or perform dozens of service resets effortlessly.

There are over 10 thousand One-Click Apps available for various car models. They allow vehicle owners to integrate retrofitted parts, reset service lights, activate video in motion, play around with Urban Joke, Scandinavian DRLs, and much more. One-Click Apps are also completely reversible, meaning that you can restore changes.

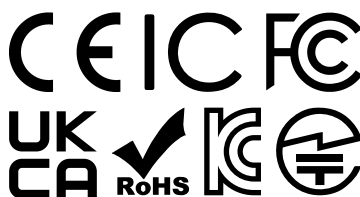

One-Click Apps are available for Volkswagen Group (VAG), BMW Group, Toyota Group, Ford (US) Group, and Mercedes-Benz models.

Certificates
